

**XIth European Symposium on Platelet and Granulocyte  
Immunobiology,  
Beaune, France, Capital of Burgundy wines and city of art,  
October 21st to 24th, 2010.**

The Scientific Committees have set up a fascinating and up-to-date program in the main areas of platelet and granulocyte immunology, from basic science to clinical application, new approaches and perspectives.

Short oral presentations will be chosen from the abstracts to encourage younger colleagues to participate actively to this meeting. A poster exhibition will be held with poster discussion sessions.

The traditional industry exhibition welcomes you to their excellent satellite symposia.

The final programme and registration are available at  
<http://sfts.asso.fr/sympo-platelet>.

To be in Burgundy is also a unique occasion to explore the charms and delights of the heart of France. Please, take the opportunity to have a pre or post congress journey there!

Look forward to seeing you in Beaune,

Cecile KAPLAN-GOUEZ  
President of the Symposium  
On behalf of the Scientific Committees
